

TUR4ALL

Tur4All is a free app designed for the disabled tourist created by Predif and the Vodafone Foundation.

The aim is to offer accessibility information for more than 1,800 tourist establishments in Spain.

The app is available for iPhone and Android.

QR codes for download are can be found at: www.predif.org .

ÁPPSIDE

It is an interactive audioguide with a variety of routes and audiovisual content to guide the visitor through the unique streets and corners of the city. Áppside is completely free and accessible for people with sensory disabilities, including subtitles and videos in sign language for the hearing impaired and audio descriptions for the blind. It can be downloaded to IOS and Android phones.
